by

**Thomas W. Schaller, AWS, NWS, TWSA**  
**Sept, 24, 25, 26, 2021**

**Thomas W. Schaller** is an award-winning artist, architect, and author based in Los Angeles. As a renowned architectural artist, he received a Graham Foundation Grant and was a two-time recipient of the Hugh Ferriss Memorial Prize. He has authored three books; the best-selling, and AIA award winner, *Architecture in Watercolor* (VNR – McGraw Hill) *The Art of Architectural Drawing* (J.Wiley and Sons), and *Thomas W. Schaller, Architect of Light : Watercolor Paintings by a Master* - a retrospective of his recent artwork released by North Light Books/F+W Media and now Penguin/Random House, NYC in 2018. He is in demand worldwide as a speaker, exhibitor, author, instructor, and juror. Artist Network Television has produced two best-selling series of instructional Videos and DVDs of his technique. Creative Catalyst/Streamline Video published a full length video of his process in 2020.

*"My work is a study in contrasts: light and dark, vertical and horizontal, warm and cool tones, the real and the imagined, as well as the past, present, and future. These elements and others are designed to collide and sometimes find resolution on the surface of the paper. And by so doing, I invite you to take part in my artistic process - not to determine the stories I am telling - but hopefully, to inspire you to tell stories of your own."*

Mr. Schaller's paintings are marvelous examples of the vibrancy achievable when using transparent watercolor and saving the white of the paper to create the light in his works. Referred to as the "architect of light" he will share his vision and techniques to help participants learn to see how to "paint with light" in this on-line (Zoom) workshop.

**Dates: September 24, 25, 26, 2021 (Friday - Sunday). 9:00am - 3:00pm with breaks**  
**Cost: WatercolorWest Members: \$285 Non-members \$325**  
**Register at [www.watercolorwest.org](http://www.watercolorwest.org)**

The workshop is limited to 25 participants to allow for questions, as well as individualized feedback on the paintings by Mr. Schaller, over the course of the workshop. The workshop is generally geared for intermediate to experienced artists.

With Zoom, all participants can have the same view of the demonstration. During the workshop it is recommended that your painting area be situated so that you can easily see your computer/laptop/tablet device in order to paint along with the instructor.

Outline of the 3-day workshop as well as suggested supply list will be sent to registered participants approximately one month before the workshop.
